

CPC™ GPS Series

The telescopes
of tomorrow
are here today!

Introducing the CPC GPS Series
from Celestron. Celestron
Professional Computerized!

New alignment technology,
advanced engineering, and a bold
new design at a price that is out of
this world!

- The telescope design that put Celestron on the map is available in a fully computerized version with internal GPS
- Impressive 8", 9.25" and 11" models
- Use the computerized hand control to automatically locate over 40,000 celestial objects
- Includes Celestron's new SkyAlign technology which simplifies setup and use of computerized telescopes
- Telescope automatically tracks each object as it moves through the night sky
- Easy enough to operate for beginner's with advanced software features experienced amateurs demand
- Best warranty in the business (2 year)

CPC™ GPS Series

CPC GPS 800

CPC GPS 925

CPC GPS 1100

Flash upgradeable hand control which contains a database of over 40,000 celestial objects and a precision engineered focusing system are just a couple of the CPC high end features.

The CPC's stability and smooth tracking make it a great platform for astrophotography (an optional wedge is available).
